Pune, Maharashtra, India • nishadkindre@gmail.com • [Portfolio](#) • [LinkedIn](#) • github.com/nishadkindre

PROFESSIONAL SUMMARY

Full Stack Developer with experience building scalable, high-impact systems across backend and frontend, including workflow automation, financial integrations, and data-driven dashboards delivering production-grade features end-to-end

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Tailwind CSS, Material UI, Figma

Backend: Node.js, Express.js, Python, REST API Design, JWT Authentication

Databases: MySQL, PostgreSQL, MongoDB

Tools & Integrations: Git, GitHub, QuickBooks, Razorpay, Stripe, Twilio, Vite, Webpack, Copilot

PROFESSIONAL EXPERIENCE

Full Stack Developer

Nov 2024 – Present

medtigo | Pune, India

- Automated licensing invoice workflow with QuickBooks API for US healthcare professionals, processing 900+ invoices (\$500K+) and \$400K+ in payments with zero manual intervention and real-time reconciliation.
- Built invoice analytics dashboard (year → month → day) with calendar and chart views for senior management, enabling trend analysis of invoice volume, revenue, and user activity across time periods.
- Developed automated PDF certificate generation system for course completions, replacing manual Figma workflows and paid third-party services — improving accuracy, turnaround speed, and reducing operational costs.
- Optimized a critical cross-platform LMS API by ~80%, replacing N+1 query patterns with batched parallel processing and reducing database queries from O(N) to O(1).
- Built a ledger-based credit system with full auditability, handling \$100K+ in transactions with accurate real-time balance tracking.
- Implemented SMS communication system using Twilio API, enabling real-time messaging and automated notifications for healthcare professionals.

Full Stack Developer – Intern

May 2024 – Nov 2024

medtigo | Pune, India

- Implemented SOC 2 compliance features to meet enterprise-grade security standards across the platform.
- Led a full website transformation project, modernizing a legacy UI to a scalable, component-based design system.
- Reduced application bundle size by 70% through code splitting, lazy loading, and efficient asset management.
- Developed real-time quiz tracking capabilities and detailed user engagement metrics to improve LMS analytics.

PROJECTS

Medtigo Conference – [Live Demo](#)

- Built a full-stack event registration platform for medtigo's Annual Health Conferences supporting multi-tier registration plans.
- Integrated Razorpay for INR payments and Stripe for USD payments, both with webhook-based real-time payment confirmation.

Technologies: Vite, React.js, Node.js, Express.js, MySQL, Material UI, Razorpay, Stripe

GitFlex – [Live Demo](#) | [Source Code](#)

- Developed a platform that transforms a user's GitHub profile into a shareable, dynamic portfolio.
- Automated portfolio generation by aggregating GitHub activity and open-source contribution data via GitHub APIs.

Technologies: Vite, React.js, Tailwind CSS, GitHub REST API

EDUCATION

Bachelor of Engineering

2019 - 2023

Pune University | Pune, Maharashtra, India
